Inventory & MSI

The total inventory of properties available for sale as of July 2022 was 72, a difference of 20% from last month, and -23% from 93 in July 2021, and was at its lowest level compared to 2021 and 2020. The average days on market (DOM) shows the number of days the average property is on the market before selling. An upward trend tends to indicate a move towards a buyer's market, while a downward trend tends to indicate a move to a seller's market. The DOM for July 2022 was 22, a change of -27% from 30 days last month, and -27% from 30 days in July 2021, and was at its lowest level compared to 2021 and 2020.

JULY 2022

Selling Price Per Square Foot

The selling price per square foot (PPSF) is a great indicator for the direction of property values. Since median & average sales prices can be impacted by the "mix" of high or low end properties in the market, the selling price per square foot is a more normalized indicator on the direction of property values.

Selling Price vs. Listing Price

The selling price vs. listing price reveals the average amount that sellers are agreeing to come down from their list price. The lower the ratio is below 100%, the more of a buyer's market exists, while a ratio at or above 100% indicates more of a seller's market. The July 2022 selling price vs. listing price ratio was 104.5%, compared to 104.6% last month, and 101.7% in July 2021.
