## Inventory & MSI

The total inventory of properties available for sale as of August 2023 was 38, a difference of -17% from last month, and -52% from 79 in August 2022, and was at its lowest level compared to 2022 and 2021. ## Selling Price Per Square Foot

The selling price per square foot (PPSF) is a great indicator for the direction of property values. Since median & average sales prices can be impacted by the "mix" of high or low end properties in the market, the selling price per square foot is a more normalized indicator on the direction of property values.

## Selling Price vs. Listing Price

The selling price vs. listing price reveals the average amount that sellers are agreeing to come down from their list price. The lower the ratio is below 100%, the more of a buyer's market exists, while a ratio at or above 100% indicates more of a seller's market. The August 2023 selling price vs. listing price ratio was 102.0%, compared to 103.2% last month, and 102.8% in August 2022.
