## Inventory & MSI

The total inventory of properties available for sale as of November 2024 was 40, a difference of -17% from - last month, and -5% from 42 in November 2023, and was at its lowest level compared to 2023 and 2022. The months of supply inventory (MSI) was at 1.1 months, a similar level compared to 2023 and 2022. A comparatively lower MSI benefits sellers, while a higher MSI benefits buyers.

## Market Time

The average days on market (DOM) shows the number of days the average property is on the market before selling. An upward trend tends to indicate a move towards a buyer's market, while a downward trend tends to indicate a move to a seller's market. The DOM for November 2024 was 33, a change of 32% from 25 days last month, and 22% from 27 days in November 2023, and was at its lowest level compared to 2023 and 2022.

## Selling Price Per Square Foot

The selling price per square foot (PPSF) is a great indicator for the direction of property values. Since median & average sales prices can be impacted by the "mix" of high or low end properties in the market, the selling price per square foot is a more normalized indicator on the direction of property values.

## Selling Price vs. Listing Price

The selling price vs. listing price reveals the average amount that sellers are agreeing to come down from their list price. The lower the ratio is below 100%, the more of a buyer's market exists, while a ratio at or above 100% indicates more of a seller's market. The November 2024 selling price vs. listing price ratio was 104.2%, compared to 105.2% last month, and 104.3% in November 2023.
